

HHA Home Health Aide

Description

The Home Health Aide course prepares the certified nurse aide (CNA) to care for clients in community and home settings. Graduates may take an examination to become a certified home health aide. Documentation and identification of client needs is an important part of this course. Many home health aides are also hired to work at hospice agencies and with agencies working with children.

Student Learning Outcomes

Communication - The student will demonstrate the ability to communicate effectively using written and/or oral communication.

Information Literacy - The student will recognize when information is needed and have the ability to locate, evaluate, and use effectively the needed information.

Problem Solving - The student will demonstrate the ability to analyze information and solve problems.

Workplace Skills - Demonstrates a mastery of workplace skills/soft skills, exhibits initiative, adapts to varied situations
