Policy Statement

The College will endeavor to fill open positions with the best, most qualified candidates possible. The People and Culture department will post position openings, notify employees of this posting, and advertise via appropriate mediums to fill the vacancy. While the College is committed to advancing internal candidates, the College will select the most qualified applicant to the position even if that candidate is an external applicant. Candidates will be informed of any pre-employment checks that may be conducted.

The College reserves the right for instructional assignments for all faculty.
