Revised:7/1/12
Responsible Party: Manager Safety and Security

Policy Statement

The safety and security of all individuals on WSU Tech property and in classrooms and laboratories is of the utmost importance to WSU Tech. Safety and security is everyone's responsibility. Students and employees should familiarize themselves with recommended security and prevention methods. All individuals are reminded to always be conscious of their surroundings and immediately report any criminal or suspicious activities to a staff or faculty member. Security information, including the Annual Security Report is available to any student or potential student, faculty or staff member or to any guest of the college.

WSU Tech's Annual Security Report includes statistics for the previous three years concerning reported crimes that occurred on-campus; in certain off-campus buildings or property owned or controlled by WSU Tech and on public property within, or immediately adjacent to and accessible from, the campus. The report also includes institutional policies concerning campus security, such as policies concerning sexual assault, and other matters. Also in compliance with Federal, State and local laws, WSU Tech has a comprehensive Emergency Operations Plan that directly effects and impacts the students, faculty and staffs' safety. You can obtain a copy of these reports and/or plans by contacting the Manager of Safety and Security or by accessing https://wsutech.edu/about/campus-safety/
