

RFP 2026-05 Auditing Services

Questions and Answers 3.26.2026

Questions:

1. Can you please provide prior year (2025) fees and hours, broken down by scope of services?
2. Please confirm that the Technical Proposal and Price Proposal are to be submitted in one document, not two separate documents.

Answers:

1. To ensure a fair and objective evaluation process, we are not providing historical fee information as part of this RFP. We ask that all firms base their proposals on the scope of services, requirements, and information outlined in the RFP materials. For planning purposes, prior audit firms have typically been on site for approximately three weeks to complete fieldwork for both the financial statement audit and the single audit.
2. The Technical Proposal and Price Proposal can be submitted in one document.
