

Remedial Math Credit by Exam

The following is a list of ALEKS, EdReady, Accuplacer, & ACT minimum exam scores WSU Tech accepts to award remedial math credit (MTH 020 & MTH 101).

These minimums are for students finishing an older catalog year that required remedial math.

Students have 3 years from exam completion to request credit by exam. If a student does not submit a request within 3 years of exam date, they will not be issued credit by exam.
