

# INDUSTRIAL MACHINE MAINTENANCE TECHNOLOGY

The Industrial Machine/ Maintenance program provides solid foundational knowledge and skills necessary to analyze, troubleshoot, and align mechanical and automated industrial machinery. Program course work includes electronics, industrial wiring, motor controls, programmable logic controls (PLC's), instrumentation, industrial fluid power, manufacturing automation, and robotics.

| DEGREE AND CERTIFICATE OPTIONS | LENGTH    | COST     | AVERAGE WAGE    | EXAMPLE JOB TITLES               |
|--------------------------------|-----------|----------|-----------------|----------------------------------|
| AAS Degree                     | 2 years   | \$14,462 | Coming<br>Soon! | Automation Technician            |
| Technical Certificate - A      | 10 months | \$6,720  |                 | Maintenance Mechanic             |
| Technical Certificate–B        | 15 months | \$10,800 |                 | Production Maintenance Tech      |
| Technical Certificate–C        | 18 months | \$12,700 |                 | Industrial Automation Specialist |

## PROGRAM CONTACTS:

**Katelyn McLemore**

Admissions Counselor

## WHY CHOOSE INDUSTRIAL AUTOMATION MAINTENANCE TECHNOLOGY?

- ◆ Industrial Automation is used in a wide variety of industries.
- ◆ Classes take place twice a week at the City Center campus.

## WHEN IS CLASS?

- ◆ Twice a week, 7:30am-3:30pm

## LOCATION INFORMATION

- ◆ Industrial Automation/Machine Maintenance classes are located at City Center—301 South Grove , Wichita, KS 67211
- ◆ General Education Classes: Times vary—Online or WSU South Campus—3821 E Harry, Wichita KS 67218
- ◆ Advising/Financial Aid: City Center—301 S. Grove Wichita, KS 67211
